

Your career path to
Fulfill Your Passion
starts at United Hospital System

Meet Linda

While patients are asleep, Linda is busy at work. Linda doesn't work night shift; she works in the operating room. Linda began working in the surgery department shortly after becoming a nurse. With over 20 years of experience, she has been involved in cases ranging from general surgery to neurosurgery.

With a passion for surgery, Linda has been empowered as a nurse through exceptional mentorship and leadership. Linda has grown in her career from being a key nurse in the development of United's robotic surgical program to becoming a charge nurse. Linda's passion and leadership skills were recognized and she was promoted to Manager of Surgical Services at the St. Catherine's Medical Center Campus. Linda's passion for surgery has not diminished, she is excited to be involved in the growing robotic program as well as more complex surgeries including neurosurgery at United.
